Current professional situation and previous position

Period	*Job title and affiliation*
Dec 2023 – present	Researcher
Sep 2020 – Nov 2023	Postdoctoral Researcher Netherlands Institute for the Study of Crime and Law Enforcement (NSCR) & Center of Expertise Cyber Security, The Hague University of Applied Sciences
Oct 2017 – Jul 2020	PhD Candidate (Research Personnel in Training – FPU16/01671)
Sep 2016 – Sep 2017	Junior Researcher Crímina Research Centre for the Study and Prevention of Crime, Miguel Hernandez University

Education

Degrees

Period	*Degree and university*
2017 – 2020	PhD in Criminology (Intl., Hons.)
2016 – 2017	MSc in Crime Analysis and Prevention Miguel Hernandez University
2011 – 2016	BA in Criminology University of Salamanca

Language proficiency

Spanish (native), English (C2), Dutch (B1), French (A2)

Research

My research focuses on the human factors involved in how, when, and where cybercrime occur. I rely mainly on quantitative methods and data science, and I enjoy collaborating with researchers from other disciplines as well as with practitioners and professionals. The purpose of my research is twofold: to generate knowledge to better understand cybercrime, and to find solutions to reduce it or mitigate its impact.

Jul 2018	Research Personnel in Training (FPU16/01671) Jill Dando Institute of Security and Crime Science, University College London

Presentations

Keynotes

Year *Title and event*

2024 1. Influencing Potential Cybercriminals with Online Ads: Empirical Findings, Lessons Learned, and Future Research Directions
Forum on Cyber Crime/Delinquency and Cyber Victimization in the Digital Age: A Comparative Perspective

Invited talks (10)

Year *Title and event*

2023 1. Panel Discussion: Cyber security threats unveiled
Policy Conference Securing Europe's Digital Future: Cybersecurity Challenges and Solutions

2. Online ad campaigns against cybercrime: The Dutch approach
Seminar by Digital Futures & Department of Criminology, University of Manchester

3. Online ad campaigns against cybercrime: The Dutch approach
Sprint – Operation PowerOFF by Europol

4. Stolen data markets on Telegram: crime script and situational crime prevention measures
2023 INTERSCT Conference on cyber security of Internet-of-Things

2022 5. Si Zaragoza no se rinde, yo tampoco!
Ciencias y Vivencias en Países Bajos by Spanish Scientists in the Netherlands (CENL)

6. One ad a day keeps cybercrime at bay
Interdisciplinary Conference on Cybercrime by School of Criminal Justice, University of Michigan

7. Using online ads to reduce cyber-attacks: lessons learned and future directions
2022 INTERSCT Conference on cyber security of Internet-of-Things

2021 8. Research Dutch Google Adwords campaign
EMPACT 3.1 Workshop by Cyber Offender Prevention Squad (COPS), Netherlands Police

9. Factores humanos e institucionales en el cibercrimen y la ciberseguridad
Seminar by Centro de Investigación para la Gobernanza Global & Programa de Doctorado en Estado de Derecho y Gobernanza Global, University of Salamanca

10. Alerting conscience to reduce DDoS attacks against the gaming industry: A quasi-experimental design using Google Ads
Research lunch by Centre of Expertise Cyber Security, The Hague University of Applied Sciences

Oral communications (76)

Year *Title and event*

2025 1. A field experiment to examine objective cybercriminal behavior in an access-as-a-service marketplace
Evidence-Based Policing in de Praktijk

2. The ripple effect of Operation Cookie Monster: How did a dark market takedown impact an untargeted hacker forum?

3. Cybercrime journeys: a framework for analyzing cyber offender online mobility
7th Annual Conference on the Human Factor in Cybercrime

4. Barriers to adopting open science practices: Findings from a survey at a criminological research institute

Year	*Title and event*
	5. The ripple effect of Operation Cookie Monster: How did a dark market takedown impact an untargeted hacker forum?
	6. Distinct group, distinct traits? The psychological and behavioral correlates of cybercrime offending
	7. A field experiment to examine objective cybercriminal behavior in an access-as-a-service marketplace: trust signals, target selection, and attack techniques
	8. Exploring the cybercrime-as-a-service ecosystem: where and how phishing kits are marketed and sold online
	9. The geographical dispersion of cybercriminal youth groups: A social network analysis approach 25th Annual Conference of the European Society of Criminology
	10. An experimental design to investigate attacker actions on an Access-as-a-Service 'criminal' platform 7th Workshop on Attackers and Cyber-Crime Operations (WACCO) & IEEE European Symposium on Security and Privacy 2025
	11. De geografische spreiding van cybercriminele jeugdnetwerken
	12. Verkenning van het cybercrime-as-a-service ecosysteem: waar en op welke wijze phishingkits online worden aangeboden en verkocht
	13. De verkenning van de rol van Cybercrime-as-a-Service markten in de betrokkenheid bij cybercriminaliteit en het belang van vertrouwenssignalen
	14. De psychologische kenmerken van daders van cybercriminaliteit
	15. The ripple effect of Operation Cookie Monster: Did a market takedown change moderation behavior on an untargeted hacker forum?
	16. Online hulpzoekgedrag na slachtofferschap van ransomware Nederlandse Vereniging voor Criminologie (NVC) congres 2025
2024	17. Exploring the operational mechanisms and trust signals in Cybercrime-as-a-Service marketplaces trading Remote Access Trojans
	18. Rise and fall of illicit Telegram marketplaces: 180 days of covert non-participant observation
	19. The local embeddedness of cybercriminal youth networks: A social network analysis approach 6th Annual Conference on the Human Factor in Cybercrime
	20. The transition to open science at the NSCR Workshop on Open Science and Open Data in European Criminological Research
	21. Countering cybercrime tutorials with online video ad campaigns: A quasi-experiment on YouTube
	22. Youth pathways into and out of digital fraud 24th Annual Conference of the European Society of Criminology
	23. Recipe for success: Factors behind the rise and fall of Telegram illicit marketplaces
	24. Cybercriminele jeugdnetwerken in Noord-Nederland: een sociaal netwerkanalyse Nederlandse Vereniging voor Criminologie (NVC) congres 2024
2023	25. The effect of online ad campaigns on cybercrime ONE Conference 2023
	26. Analyzing interest in booter services and DDoS attacks: Insight from Google search data
	27. Pathways into cybercrime: social opportunities, criminal careers, and the intertwinement of crime
	28. Examining ransomware payment decision-making among SMEs 5th Annual Conference on the Human Factor in Cybercrime
	29. Examining ransomware payment decision-making among SMEs
	30. Cybercrime-as-a-Service markets and IoT devices: expert insights
	31. Origin, growth, and structure of (cyber)criminal youth networks in a digitizing society 23rd Annual Conference of the European Society of Criminology
	32. The effect of online ad campaigns on cybercrime: A cross-national difference-in-differences quasi-experiment Cambridge Cybercrime Centre: 6th Annual Cybercrime Conference
	33. Who searches for DDoS-attacks and what do they exactly search for? The Cybersecurity Revolution (SECREV2023)
	34. Een quasi-experimenteel onderzoek op Google Wat werkt? Evidence-Based Policing in Nederland

Year *Title and event*

2022 35. Hacking efficiency: online mobility and the least effort principle
36. Does one ad a day keep cybercrime at bay?
37. Examining risk profiles for cybercrime victimization
4th Annual Conference on the Human Factor in Cybercrime
38. Do online ad campaigns reduce DDoS?
Research Seminar on Contemporary Cybercrime
39. Do online ads reduce DDoS attacks?
Cyber Resilience Symposium of the Center of Expertise Cyber Security
40. Hacker mobility in cyberspace and the least effort principle
41. Examining risk profiles for cybercrime victimization
42. Does one ad a day keep cybercrime at bay?
43. Telegram stolen data markets: crime script and interventions

Funding

Personal grants

Period	*Grant and funder*	*Amount (€)*
2023 – 2027	Veni grant - NWO Talent Programme (VI.Veni.221R.024) Dutch Research Council (NWO)	279,841
2017 – 2020	Grants for the training of university staff (FPU16/01671) Spanish Ministry of Education, Culture and Sports; and Spanish Ministry of Science, Innovation and Universities	65,688
2019 – 2019	Mobility grants for short stays and temporary transfers (EST18/00043) Spanish Ministry of Science, Innovation and Universities	3,060

Consortium grants

Period	*Grant and funder*	*Amount (€)*
2024 – 2026	Victims of online crime Achmea Victim and Society Foundation (SASS)	76,250

2022 – 2023	Police and Science Programme (PW/OV/2023/27.10) Netherlands Police	101,060

Teaching experience

My teaching areas include introductory criminology, environmental criminology, cybercrime prevention, and research methods. I completed the Initial Training Program in University Teaching (PFIDU), the Spanish equivalent of the Basis Kwalificatie Onderwijs (BKO). I am also a certified Carpentries Instructor qualified to teach the core curriculum of Data Carpentry, Library Carpentry, and Software Carpentry.

Undergraduate courses

Period taught	*Subject and university program*	*Code*
2018 – 2020	Introduction to Criminology BA in Public Safety and Private Security, Miguel Hernandez University	08030
2018 – 2019	Violent communication and hate speech in cyberspace MA in Cybercrime, International University of Catalonia	12963

Guest lectures

Year taught	*Subject, and program and university*	*Code*
2025	Influence Policing against Cybercrime-as-a-Service: The case of booters and remote access trojans Master Cyber Security, University of Southampton	COMP6236
	The role of online ad campaigns in cybercrime prevention—interventions on Google and YouTube Minor Cybercrime, The Hague University of Applied Sciences	SSMS-CC-25
2024	Criminology and Safety: Theories, trends, and policies Master Sociology: Contemporary Social Problems (ASVM), Utrecht University	201500009
2023 – 2024	Cybercrime Offenders Minor Cybersecurity & Cybercrime, Leiden University	22606006
2023	Prevention and interventions Minor Cybercrime, The Hague University of Applied Sciences	SSMS-CC-23
2021 – 2022	Crime, Safety & Security Bachelor in Safety and Security Management Studies, The Hague University of Applied Sciences	SSMS-CSS-21/22
2021	New criminological theories and cybercrime Bachelor in Criminology and Security Sciences, Valencian International University	51GCRI
2020	Financial crime, white collar crime and digital systems Trust & Security in a Digital World: From Fake News to Cybercriminals, University College for Interdisciplinary Learning at University of Manchester	UCIL20132
2019	Organized crime Bachelor in Criminology and Public Policies for Prevention, Pompeu Fabra University	21099
	Fighting hate crime Summer course, Miguel Hernandez University	10454

Workshops

Year taught	*Title and organizer*
2024	Transitioning from EndNote to Zotero Netherlands Institute for the Study of Crime and Law Enforcement (NSCR)
2023 – 2025	R for Social Scientists Data Carpentry & NSC-R Workshops & NWO-I Digital Competence Center (DCC)
2023	Learning to learn R NSC-R Workshops
2022	Using R for Reproducible Social Science NSC-R Workshops & NWO-I Digital Competence Center (DCC)

	cacc: Conjunctive Analysis of Case Configurations NSC-R Workshops
2022 – 2024	TidyTuesday NSC-R Workshops
2021	RMarkdown NSC-R Workshops
2020	Análisis Conjunto de Configuraciones de Caso (CACC) #YHLQMDLG: talleres metodológicos para la investigación empírica en Criminología y Derecho penal

Supervision of students

Period	*Supervision type*	*Supervisee's name*
2025 – present	1 intern mentored & MSc thesis supervised Netherlands Institute for the Study of Crime and Law Enforcement (NSCR) & [60418] MSc in Marketing Analytics and Data Science	Homsma, A. S.
2025	1 junior researcher supervised Center of Expertise Cyber Security, The Hague University of Applied Sciences	Fuchs, T.
2024 – 2025	1 intern mentored & MSc thesis supervised Netherlands Institute for the Study of Crime and Law Enforcement (NSCR) & [60048] MSc in Forensic Criminology	Van Soest, I.
2024	1 intern mentored Center of Expertise Cyber Security, The Hague University of Applied Sciences	Dahoe, S.
2023 – present	1 PhD student supervised	Stibbe, D.
2023 – 2024	2 interns mentored	Ditchev, L., & Verhofstadt, L.
2022 – present	1 PhD student supervised Netherlands Institute for the Study of Crime and Law Enforcement (NSCR)	Kool, H.
2022 – 2023	1 junior researcher supervised	Garkava, T.
	1 intern mentored	Janssen, T.
2021 – present	1 PhD student supervised	Loggen, J.
2021 – 2022	1 junior researcher supervised	Boeken, J.
	1 intern mentored	Garkava, T.
2020 – 2021	1 intern mentored Center of Expertise Cyber Security, The Hague University of Applied Sciences	Folkers, W.
2018 – 2019	1 MSc thesis supervised [03235] MSc in Crime Analysis and Prevention, Miguel Hernandez University	Modesto-Castrillon, C.
